Hon. F. O. Prince, when interviewed in Governor, said: "I do not doubt that if cleeted Mr. Andrew will make a most acceptable magistrate." That is almost as hopeful and enthusiastic as the opinion expressed by Mr. Redman when he was a candidate in this State two years.

Now that the Mugwumps and Democrats of Massachusetts are again united under one standard bearer hostilities between the Globe and Herald will probably cease for the time being, although we imagine that the Mugwump physic is a bitter dose for the Globe to swallow, or at least such would seem to be the case if it was wump in polities.

The New York Evening Post still points to the retention of Postmaster Pearson as evidence of the President's adherence to his reform pledges. The scarcity of material invariably causes the Mugwump organs to turn to this one appointment when serving up their reform hash, but it should occur to them that it is a terrible strain on Pearson to use him as an offset to all the Administration's violations of ante- ple the year. Three weeks have elapsed since the commencement of the elapsed since the commencement of the labor troubles in this city and the difficulty is practically as far from settlement to-night as at the start. There was a meeting, among the workingmen and citizens generally to-night thought the matter would be adjusted to-day and the men return to work Monday. The Poisoning Story

The story denied in the above despatch first appeared in the columns of the St. Paul Globe and was telegraphed to Eastern papers. In brief, the story told was that Mackin, the convicted ballot-box stuffer, and forger, in the hope of escaping the punishment for his climes, secured the services of the great liwyer, Emory A. In the course of his investigation it is said that Mr. Storrs became possessed of secrets daugerous to the gang with which Mackin was connected, and in addition thereto the liberty of Mackin would also put the gang at his mercy.
